About

I am a Bachelor of Applied Mathematics and Informatics and working as Middle Full Stack Developer at Devspiration.

Education

Bachelor of Applied Mathematics and Informatics

2017 – 2021 | Ivan Franko
National University of Lviv

PwC is driving audit innovation. I work in a team that processes data for audit. The project has a microservice architecture. Also, I adjust the performance of SQL queries.

I became a mentor of two teams from Ivan Franko National University of Lviv and Lviv Polytechnic. We are working on Defender.NET project. Also I mentored team that created useful service with interactive map of university and schedule "MyUni"

It's a secure platforms and digital postboxes that enables efficient communication between public authorities, citizens and businesses. It provides secure and efficient management of digital documents and associated features, like digital signature. Built on microservices, therefore easy to scale, implement and maintain. Supporting both cloud and on-premise storage. High-load system.

I am working as Python Mentor and conducted a lot of online-lectures about IT sphere for kids.

Taught children HTML, CSS, JavaScript and Bootstrap. Created a large number of projects: Zombie-Shooter, Retro-Games, SchoolLogic.

EveryMatrix delivers a modular and API driven product suite including a market-leading one-stopshop casino content aggregator and integration platform. I am working as a backend developer and implement the integration of game providers.

Worked as Trainee .NET Developer on EveryMatrix project.

Skills

Hard Skills: Databases: Relational databases like MySQL, MS SQL and NoSQL.

Methodologies: Agile, Waterfall, Kanban, Scrum.

Web: HTML5, CSS, JavaScript, Angular.

.NET: ASP.NET MVC/CORE MVC, WPF(MVVC), Web Services (REST,SOAP).

Some frameworks that I have been working on are ADO.NET, Entity Framework, Unity, AutoMapper, NLog, NUnit, MSTest.. Other technologies: Elasticsearch, Kibana, Kafka, Docker. OOP, OOD, SOLID principles and design patterns.

Soft Skills: Teamwork – mentoring students and fast-work style during hackathons.

Communication – good communication with my team and mentor.

Time management – working with Jira, Trello.
